

# **BAREBACK RIDER**

Adegbalola 11/01

Hey there my friend  
I wanna give you some advice  
Take your time & think it through  
More than once or twice  
When a fellow walks up to you  
And you check his size  
Make sure he's tall enough  
To ride your ride

Chorus      But he can't ride bareback (no he can't ride bareback)  
                 He can't ride bareback (no he can't ride bareback)  
                 He can't ride bareback, don't you dare  
                 If he wants to ride bareback  
                 He'll need to find another mare

Don't want no pony  
Too slow round the track  
Don't want no ass (donkey)  
Always holding back  
Don't want no mule  
Kicking in your stall  
Lord you need a stallion  
Come every time you call

Chorus

Bridge      You are in control  
                 Keep pulling on the reins  
                 You are in control  
                 Got to use your brains  
                 Hold that riding crop  
                 Take it to the top  
                 Like at the Magic Kingdom  
                 Don't get off until you stop

1st verse
