D7 **A**
Fess up when you mess up, there's no need to lie

E **D7** **A** **E7**
Or sweet baby you can kiss your life good-bye

A
The rent was short a hundred or so

You said you spent it down at the corner store

Said you bought some liquor

Said you bought a snack

I see it in your eyes

A7
That you been buying crack

Chorus

You came home with a small that was strange to me
Said you were pumping gas and drinking Chinese tea
I sniffed around your collar
I got up in your face
What you been doing baby
Is a terrible disgrace

Chorus

I waited and waited for you to come home

**I kept the fires burning and your seafood dinner warm
You said the boss had kept you
To do some overtime
Taking inventory
But the stock won't even mine**

Chorus

Repeat chorus but start on A
