

#6 POLLUTION: (You're) Flint Water

Yeah you're dirty, dirty, dirty
You never do come clean
I could bathe you in Clorox
And rinse yo' ass in gasoline
You be drinking, drinking, drinking
No matter what the proof is
You be drinking like a fish
And (you) always stay polluted

Chorus: You're Flint water, baby (Flint water, baby)
 You're dirty like Flint water, baby (Flint water, baby)
 Polluted like Flint water, baby
 I can't even flush you away

Everything you touch is toxic
Your emissions make the children sick//will not pass
I think you're radioactive
I'm gonna call the doctor quick//I need a gas mask
Here you come walking up in here
Reeking like a skunk
Oh Lord, have mercy, Jesus!
Now that's some wicked funk

Chorus — with smell

You're tired, tired, tired
Just as stagnant as can be
You got an ass full of lead
You just sit and watch TV
You no longer dance and wiggle
You cannot sink or swim
You cannot get the lead out
Look at the shape you're in
Chorus — with lead tainted, ain't it
