

QUEER BLUES
rev 03/07

Adegbalola 10/06,

**Chorus: Oh yes I'm here now
And I'm queer now
Get over it
I'm here now
And I'm queer now
You better get over it**

**Every since the day I was born
I knew I was not the same
As the other little girls in my neighborhood
Who laughed and called me names
I didn't like dolls
I didn't like dresses
My shame turned in to fear
But times have changed
And I love being queer**

Chorus

**When I was a teen I dated boy after boy
To prove I was okay
I'd let 'em go to second base
Never let 'em go all the way
I didn't like their kisses
I didn't like their touch
My lies turned in to fear
But times have changed
And I love being queer**

Chorus

**I got married, I had a child
I did the housewife thing
I'd wash and iron
Cook and clean
Treated him like a king**

**But then I had headaches
Night after night
And it became real clear
That times have changed
And I love being queer**

**Now I'm old, with a family
Now I'm out in the open
No hide and go seek, no shame, no lies
No more life unspoken
I want your acceptance
Just as I am
There's really nothing to fear
Times have changed
And I love being queer**

Chorus
