

**You come here worried
Asking me what you should do
You come here all worried
Asking me what you should do
If you want advice
I can give it to you**

**Becuz I been around a long time
And done a lot of living too
You know I been around a long time
And done a lot of living too
When all is said and done
There's only one thing that's true**

**Refrain: You got to live for love
 Without love, you don't live
 You got to live, live, live for love
 Without love, you don't live
 That's the only truth
 That I have to give**

**Because there're too many rules
Too many laws
Too many guidelines
Too many orders
Too many hopes
Too many faiths
Too many people saying
What is and what ain't
Too many TV channels/cliques
Too many Facebooks/groups
Too many lies
But only one truth
Refrain**

**You know there're too many wrongs
Too many grudges
Too many rights
Too many judges
Too many words
Too many isms**

**Too many numbers
Too many divisions
Too many old
Regretting their youth
Too many consequences
But only one truth
Refrain**
